CERTIFICATE OF CALIBRATION

AEROCENTER EPPS ATLANTA

Aero Center Epps Atlanta
1 Aviation Way
Atlanta, Georgia, 30341, United States
7704589851

Record Information

Certificate No: 3900-4
GageList ID: 3900
Instrument ID: A-1005
Serial No: V070010
Asset No:
Company: Advanced AOG

Gage Information

Gage Status - As Found: Active
Model: TWM200A
Manufacturer: Mac Tools
Date Acquired: 09/12/2022
Procedure No: 02.01
Description: Torque Wrench 30-200 inlb
Reference Standard: No
Shared Tool:
Customer Code: AA50

Calibration Information

Interval: Scheduled (1 years, 0 months, 0 days)
Temperature: 66 F
Calibration Type: SCHEDULED
Humidity: 20%

Gage Assignment

Tool Location:
Assignee:

Calibration performed under the following environmental conditions:

Test No	Attribute	Nominal | Minimum | Maximum	As Found	As Left	Result
1	CLOCWISE	64 | 61.44 | 66.56 In Lb	61.67	61.67	Pass
2	CLOCKWISE	98 | 94.08 | 101.92 In Lb	94.77	94.77	Pass
3	CLOCKWISE	132 | 126.72 | 137.28 In Lb	130.04	130.04	Pass
4	CLOCLWISE	166 | 159.36 | 172.64 In Lb	164.59	164.59	Pass
5	CLOCKWISE	200 | 192 | 208 In Lb	200.98	200.98	Pass

This Gage is within Specifications: (As Found) Pass - (As Left (overall pass/fail)) Pass
Gage is Fit for Intended Purpose: (As Left) Yes
Calibration Actions
Adjustments Required: No
Repairs Required: No
Action Required: No

Statement: The instrument on this certification has been calibrated against standards traceable to the National Institute of Standards and Technology (NIST) or other recognized national metrology institutes, derived from ratio type measurements, or compared to nationally or internationally recognized consensus standards. A test uncertainty ratio (T.U.R) of 4:1 [K=2, approx. 95% Confidence Level] was maintained unless otherwise stated. Lab Operations follow the guidelines of ANSI/NCSL Z540-1-1994, ISO/IEC/7025 NIST Handbook 150:2006, DAP-TM08 Rev 4.0 & NIST Tech Note 1297, 1994 All results contained within this certification relate only to item(s) calibrated. Any number of factors may cause the calibration item to drift out of calibration before the instrument's calibration interval has expired. This certificate shall not be reproduced except in full, without written consent of Aero Center Epps Atlanta Calibration Department

Review and Approval

Calibrated By: A MEREDITH
Next Calibration Due: 02/03/2027
Finalized By: A MEREDITH
Calibration Date: 02/03/2026
Gage Status - As Left: Active
Date Finalized: 02/03/2026
