CERTIFICATE OF CALIBRATION

AEROCENTER EPPS ATLANTA

Aero Center Epps Atlanta
1 Aviation Way
Atlanta, Georgia, 30341, United States
7704589851

Record Information

Certificate No: 5342-2
GageList ID: 5342
Instrument ID: A-1008
Serial No: 0324122020
Asset No:
Company: Advanced AOG

Gage Information

Gage Status - As Found: Active
Model: 501MRMH
Manufacturer: CDI Torque Products
Date Acquired: 06/04/2025
Procedure No: 02.01

Description: Torque Wrench 10-50 inlb
Reference Standard: No
Shared Tool:
Customer Code:

Calibration Information

Interval: Scheduled (1 years, 0 months, 0 days)
Temperature: 66 F
Calibration Type: SCHEDULED

Humidity: 20%

Gage Assignment

Tool Location:

Assignee:

Calibration performed under the following environmental conditions:

Test No	Attribute	Nominal | Minimum | Maximum	As Found	As Left	Result
1	CLOCKWISE	18 | 17.28 | 18.72 In Lb	18.09	18.09	Pass
2	CLOCKWISE	26 | 24.96 | 27.56 In Lb	25.82	25.82	Pass
3	CLOCKWISE	34 | 32.64 | 35.36 In Lb	34.03	34.03	Pass
4	CLOCKWISE	42 | 40.32 | 43.68 In Lb	41.95	41.95	Pass
5	CLOCKWISE	50 | 48 | 52 In Lb	50.53	50.53	Pass
6	COUNTER-CLOCKWISE	18 | 16.92 | 19.08 In Lb	17.18	17.18	Pass
7	COUNTER-CLOCKWISE	26 | 24.44 | 27.56 In Lb	25.28	25.28	Pass
8	COUNTER-CLOCKWISE	34 | 31.96 | 36.04 In Lb	33.12	33.12	Pass
9	COUNTER-CLOCKWISE	42 | 39.48 | 44.52 In Lb	41.12	41.12	Pass
10	COUNTER-CLOCKWISE	50 | 47 | 53 In Lb	49.33	49.33	Pass

This Gage is within Specifications: (As Found) Pass - (As Left (overall pass/fail)) Pass

Gage is Fit for Intended Purpose: (As Left) Yes

Calibration Actions

Adjustments Required: No
Repairs Required: No
Action Required: No

Statement: The instrument on this certification has been calibrated against standards traceable to the National Institute of Standards and Technology (NIST) or other recognized national metrology institutes, derived from ratio type measurements, or compared to nationally or internationally recognized consensus standards. A test uncertainty ratio

CERTIFICATE OF CALIBRATION

(T.U.R) of 4:1 [K=2, approx. 95% Confidence Level] was maintained unless otherwise stated. Lab Operations follow the guidelines of ANSI/NCSL Z540-1-1994, ISO/IEC/7025 NIST Handbook 150:2006, DAP-TM08 Rev 4.0 & NIST Tech Note 1297, 1994 All results contained within this certification relate only to item(s) calibrated. Any number of factors may cause the calibration item to drift out of calibration before the instrument's calibration interval has expired. This certificate shall not be reproduced except in full, without written consent of Aero Center Epps Atlanta Calibration Department

Review and Approval

Calibrated By: A MEREDITH

Calibration Date: 02/03/2026

Next Calibration Due: 02/03/2027

Gage Status - As Left: Active

Finalized By: A MEREDITH

Date Finalized: 02/03/2026
